

DOWNLOAD

Strain Reducer

INSTRUCTIONS

Take a load off!

1.

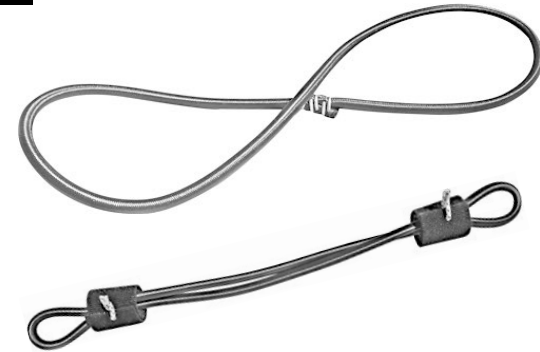

DOWNLOAD consists of three parts - a loop of 8mm shock cord and two Velcro ties.

2.

For heavier sled loads, or when using in series* with sea ice traces, use DOWNLOAD as a double loop. Secure with ties.

3.

For lighter sled loads, or when using in parallel* with land ice traces, use DOWNLOAD as a single loop. Secure with ties.

4.

Use carabiners to connect DOWNLOAD to your harness and sled trace.

5.

Alternatively, connect a rope using a Girth Hitch knot. You can also connect parallel mid-rope by placing knots in the rope and girth-hitching Download either side.

6.

When DOWNLOAD is not in use, use ties to hold skis or other gear together.
